## ***Number of Cancer Surgeries Performed in Pennsylvania Hospitals and Ambulatory Surgery Centers (ASCs) July 1, 2023 through June 30, 2024 Data***

### **About this Report**

This report provides information about the number of cancer-related surgeries performed at Pennsylvania hospitals and ambulatory surgery centers. Surgical volume is reported for eleven types of cancers including bladder, brain, breast, colon, esophagus, liver, lung, pancreas, prostate, rectum, and stomach cancer. Included are surgeries focused on the treatment of cancer; diagnostic procedures (e.g., biopsies) are not included. Hospital-specific results are shown for all eleven cancer types. Surgeries performed in ambulatory surgery centers and hospital outpatient departments are also included for cancers of the bladder, breast, and prostate. This information can be helpful to cancer patients, their families, and others when making decisions about cancer surgical care in Pennsylvania. The results in this report are presented in two separate tables, each offering a different focus:

- **Table 1. Total Volume by Cancer Category** – shows total cancer surgery volume for each facility, for all eleven cancer surgeries.
- **Table 2. Volume of Cancer Surgeries by Setting, for Bladder, Breast, and Prostate Cancer** – shows separate inpatient and outpatient volume details for bladder, breast, and prostate cancer surgeries.

**Number of Cancer Surgeries Performed in Pennsylvania Hospitals and Ambulatory Surgery Centers (ASCs)  
July 1, 2023 through June 30, 2024 Data**

**Table 1. Footnotes**

<sup>1</sup> Because a substantial volume of bladder, breast, and prostate cancer surgeries are performed in the outpatient setting, total volume includes both inpatient and outpatient cases combined; cases performed in inpatient and outpatient settings are also displayed separately.

<sup>2</sup> Results for hospitals reflect both inpatient and outpatient surgery volume. Results for ambulatory surgery centers (SC) reflect outpatient (ambulatory) surgeries only.

<sup>3</sup> Children's hospitals and facilities that have been newly opened, closed, or merged (as of the report preparation date) are not listed in the report, but all surgeries performed by these facilities are included in the statewide totals.

**Number of Cancer Surgeries Performed in Pennsylvania Hospitals and Ambulatory Surgery Centers (ASCs)  
July 1, 2023 through June 30, 2024 Data**

**Table 2. Footnotes**

- <sup>1</sup> Because a substantial volume of bladder, breast, and prostate cancer surgeries are performed in the outpatient setting, total volume includes both inpatient and outpatient cases combined; cases performed in inpatient and outpatient settings are also displayed separately.
- <sup>2</sup> Results for hospitals reflect both inpatient and outpatient surgery volume. Results for ambulatory surgery centers (SC) reflect outpatient (ambulatory) surgeries only.
- <sup>3</sup> Children's hospitals and facilities that have been newly opened, closed, or merged (as of the report preparation date) are not listed in the report, but all surgeries performed by these facilities are included in the statewide totals.

# About PHC4

Created by the Pennsylvania General Assembly in 1986, the Pennsylvania Health Care Cost Containment Council (PHC4) is an independent council charged with collecting, analyzing, and reporting information that can be used to improve the quality and restrain the cost of health care in the Commonwealth. Today, PHC4 is a recognized national leader in public health care reporting. PHC4 is governed by a council with members representing business, labor, consumers, health care providers, insurers, health economists, and state government.

The information contained in this report and other PHC4 publications is available online at [www.phc4.org](http://www.phc4.org). Additional financial, hospitalization, and ambulatory procedure health care data is available for purchase. For more information, contact PHC4's Special Requests at [specialrequests@phc4.org](mailto:specialrequests@phc4.org) or **717-232-6787**.
