Due to rounding the percentages may not equal 100 percent.

*Suppressed due to low volume.

Ambulatory/outpatient data includes visits to hospital outpatient departments and freestanding ambulatory surgery centers for procedures that meet the Pennsylvania Health Care Cost Containment Council data collection guidelines. Restrictions based on revenue codes and HCPCS codes were applied to identify procedures performed in a surgical setting, endoscopy procedures, heart catheterizations (e.g., cardiac cath, PTCA), and chemotherapy. Data for each county include all county residents regardless of the facility location where they were treated.
