

An Annual Report on the Financial Health of
Pennsylvania's Ambulatory Surgery Centers

FINANCIAL ANALYSIS 2011

VOLUME TWO
Ambulatory Surgery Centers

Pennsylvania Health Care Cost Containment Council
September 2012

About PHC4

The Pennsylvania Health Care Cost Containment Council (PHC4) is an independent state agency charged with collecting, analyzing, and reporting information that can be used to improve the quality and restrain the cost of health care in the state. It was created in the mid-1980s when Pennsylvania businesses and labor unions, in collaboration with other key stakeholders, joined forces to enact market-oriented health care reforms. As a result of their years of effort, the General Assembly passed legislation (Act 89 of 1986) creating PHC4.

The primary goal is to empower purchasers of health care benefits, such as businesses or labor unions, as well as other stakeholders, with information they can use to improve quality and restrain costs. Nearly 100 organizations and individuals annually utilize PHC4's special requests process to access and use data. More than 750,000 public reports on patient treatment results are downloaded from the PHC4 website each year. Today, PHC4 is a recognized national leader in public health care reporting.

It is governed by a 25-member board of directors representing business, labor, consumers, health care providers, insurers, and state government.

Non-Compliant Ambulatory Surgery Centers	26

Key Findings

- ✦ The number of ambulatory surgery centers (ASCs) in Pennsylvania increased by five in fiscal year 2011 (FY11) to 271 ASCs.
- ✦ The statewide average operating and total margins for ASCs during FY11 were 25.02% and 25.19%, respectively, a slight increase in both from the previous year.
- ✦ ASCs reported 1 million outpatient visits and \$1 billion net outpatient revenue during FY11.
- ✦ The number of procedures at ASCs increased 2.5% in FY11.
- ✦ Commercial insurance covered 52.7 % and Medicare covered 34.6% of outpatient procedures at ACSs during FY11.

Statewide	25.02%	25.19%	25.47%	24.16%	4.03%	4,066

* See page 9 for the list of counties included in each region.

Introduction

On an annual basis, the Pennsylvania Health Care Cost Containment Council (PHC4) produces a series of reports that measure the financial health of Pennsylvania's hospitals and ambulatory surgery centers.

This is the second volume of a three-volume series. *Volume One*, released in May 2012, focused on the financial health of Pennsylvania's general acute care (GAC) hospitals. This report, *Volume Two*, concentrates on Pennsylvania's ambulatory surgery centers (ASCs). *Volume Three*, to be released later this year, will focus on rehabilitation hospitals, psychiatric hospitals, state psychiatric hospitals, long-term acute care hospitals and specialty hospitals (non-GAC hospitals). To provide perspective on the overall outpatient care provided in the Commonwealth, information on outpatient services performed by hospitals is mentioned in this report.

The reporting year for the ASCs in *Volume Two* is based on each facility's fiscal year that ended during 2011. The fiscal year for the majority of ASCs was the calendar year ending on December 31, 2011. For those facilities that do not utilize a calendar year, the fiscal year typically ended on June 30, 2011.

Information in this report was derived from annual financial statements and data submissions, as well as quarterly ambulatory/outpatient procedure data supplied by each facility. Every reasonable effort has been made to ensure the accuracy of the information. Each facility had the opportunity to review its data and make changes, if necessary. The ultimate responsibility for accuracy lies with the individual facility.

TABLE 2
Number of Facilities, FY11
by Facility Type

Facility Type	Number of Facilities
Ambulatory Surgery Centers	271
General Acute Care Hospitals	168
Non-General Acute Care Hospitals	78
Total	517

Ambulatory Surgery Centers

During fiscal year 2011 (FY11), there were 271 ambulatory surgery centers (ASCs) operating in Pennsylvania. The number of ASCs in Pennsylvania increased by five in FY11. Between FY10 and FY11, five ASCs opened and none closed. Three of these ASCs are located in Region 5 and the other two are located in Region 8.

Figures 1 and 2 illustrate the growth in the number of ASCs in Pennsylvania from FY02 to FY11. Between FY02 and FY11, the number of ASCs in Pennsylvania grew by 160 facilities, with the largest increase (28%) occurring in FY04. Over the same time period, the greatest concentration of growth occurred in Region 8 – Bucks, Chester, Delaware and Montgomery counties (see Figure 2).

The analysis for FY11 and the individual ASC tables in this report is based on data collected from 256 ASCs; fifteen ASCs did not submit complete data and their data is not included in this report.

Statewide and regional averages that are expressed as a percentage (e.g., operating margin) in this report were calculated as if the entire group (state or region) were a single reporting entity. For example, the regional average operating margins were calculated by dividing the sum of operating income for all ASCs in the region and the sum of total operating revenue for all ASCs in the region.

FIGURE 1
Number of Ambulatory Surgery Centers by Fiscal Year

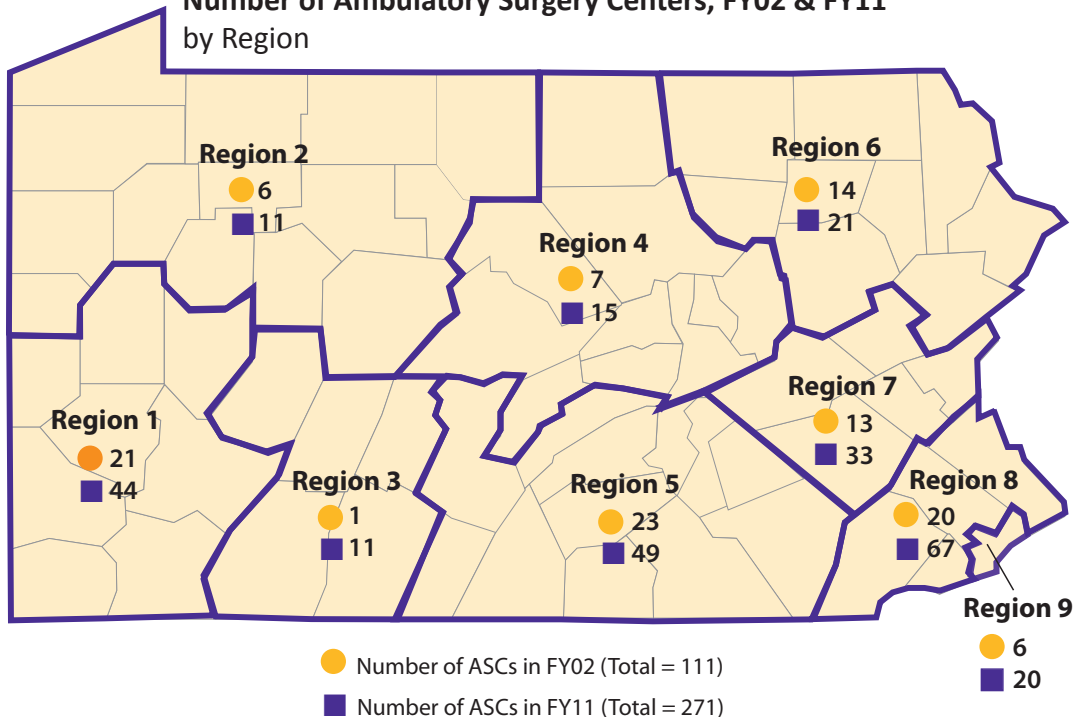

FIGURE 2
Number of Ambulatory Surgery Centers, FY02 & FY11 by Region

Operating and Total Margins

The average operating and total margins for ASCs statewide increased slightly from FY10 to FY11, with the average operating margin increasing to 25.02% (from 24.86%) and the total margin increasing to 25.19% (from 24.99%). The average statewide operating and total margins for ASCs have changed only marginally over the past four fiscal years, FY08 to FY11 (see Figure 3). The statewide average operating and total margins for ASCs are similar because ASCs realize only a small amount of non-operating income. Eighty-eight percent (225) of reporting Pennsylvania ASCs operated as for-profit facilities in FY11. The remaining twelve percent (31) operated as non-profit facilities.

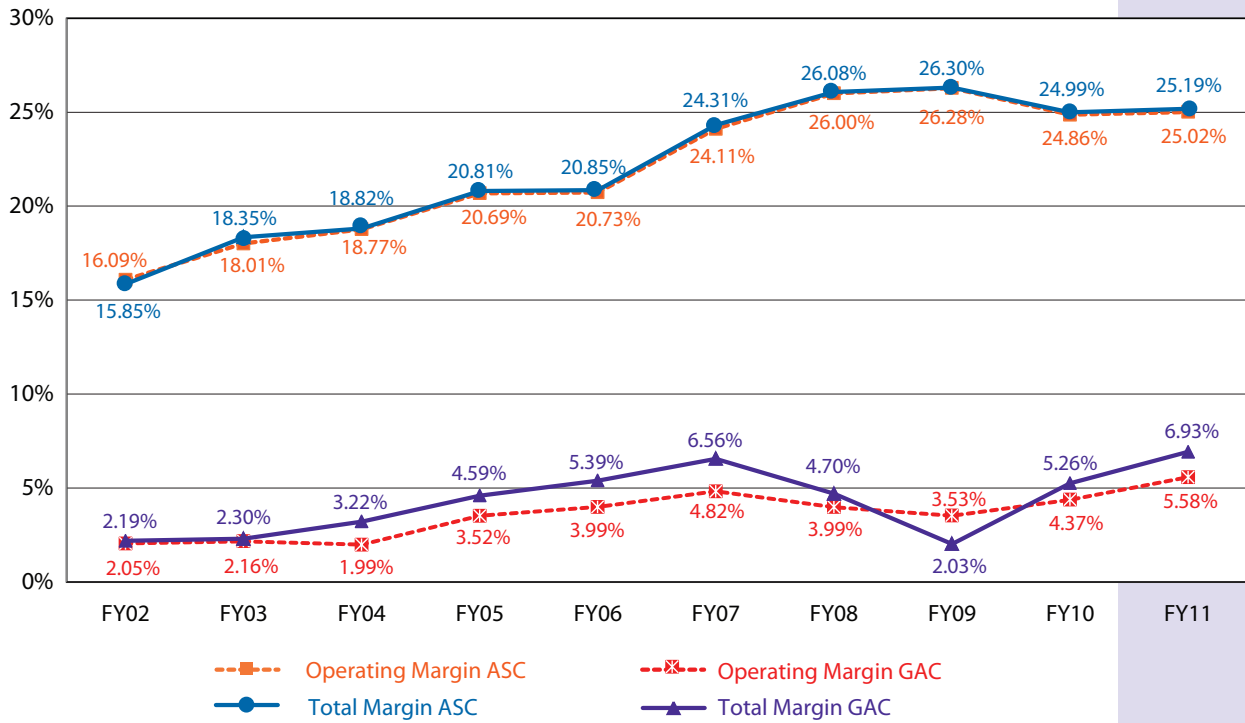

Figure 3 displays the statewide average operating and total margins for ASCs and general acute care (GAC) hospitals. Statewide average operating and total margins for freestanding rehabilitation, psychiatric, long-term acute care, and specialty hospitals (non-GAC) will be reported in PHC4's *Financial Analysis, Volume Three* to be released later this year.

It is important to point out that the statewide average margins for ASCs cannot be directly compared to the average margins for the GAC hospitals for two reasons.

Physician owners of surgery centers may receive all or part of their compensation as a distribution of net income, instead of salaries or fees. Consequently, such distributions are not reported as an operating expense; if they were, that would reduce operating and total margins. In contrast, physician compensation paid by GAC hospitals is almost exclusively reported as salary or professional service expenses and included in operating and total margin figures.

In addition, the majority of ASCs are limited liability partnerships or Sub-Chapter S corporations and therefore, are not subject to income taxes. Income taxes are generally paid as personal income tax by the owners. Consequently, the total margin for most for-profit ASCs does not reflect income tax expenses. On the other hand, the total margins for the state's for-profit GAC hospitals are calculated after the tax expense is deducted.

FIGURE 3
**Statewide Average Operating and Total Margins
 for Ambulatory Surgery Centers and General Acute Care Hospitals
 by Fiscal Year**

Outpatient Visits and Revenue

Pennsylvania’s hospitals and ASCs reported 43.0 million total outpatient visits during FY11 (Table 3). GAC hospitals continued to be the predominate providers of outpatient care in FY11. GAC hospitals reported 39.7 million outpatient visits (includes home health), which represents 92.2% of the total number of outpatient visits in the Commonwealth. Non-GAC hospitals reported 2.3 million outpatient visits (5.4%), and ASCs reported 1.0 million outpatient visits (2.4%).

Combined, hospitals and ASCs reported \$16.5 billion in statewide net patient revenue for outpatient care during FY11. GAC hospitals accounted for 91.9% of the total net outpatient revenue, non-GAC hospitals 1.8%, and ASCs 6.3%. The \$1.0 billion net outpatient revenue reported by ASCs during FY11 represents 6.9% of the outpatient revenue received by GAC hospitals.

The small increase (0.7%) in the number of outpatient visits reported by ASCs during FY11, combined with the 4.8% increase in net outpatient revenue, resulted in an average revenue per visit of \$1,003 during FY11, a 4.0% increase over the FY10 figure.

There is wide variation in the average outpatient revenue per visit across the facility categories. This is primarily due to the variation in the level of resources provided per visit. For example, a patient may receive care as a series of visits comprised of relatively short treatments (e.g., psychotherapy) in a hospital outpatient setting, while a patient at an ASC may be subject to an entire surgical procedure during a single visit. The average outpatient revenue per visit at GAC hospitals reflects reimbursements for a wide range of outpatient services. As a group, ASCs provide a wide variety of outpatient services at varying levels of resource intensity; however, on an individual basis, ASCs specialize in surgical procedures, e.g., endoscopy, laser surgery, ophthalmology, and spine care.

TABLE 3
Outpatient Visits and Revenue, FY11
 by Facility Type

Facility Type	Visits	Net Outpatient Revenue (thousands)	Average Outpatient Revenue per Visit
Ambulatory Surgery Centers	1,040,919	\$1,043,609	\$1,003
General Acute Care Hospitals	39,652,170	\$15,191,821	\$383
Non-General Acute Care Hospitals*	2,327,907	\$302,291	\$130
Statewide	43,020,996	\$16,537,721	\$384

*Excludes State Psychiatric Hospitals

Outpatient Procedures

Outpatient procedures include surgical and nonsurgical procedures.¹ During FY11, 2.8 million outpatient procedures were performed at ASCs and GAC hospitals (Figure 4 and Table 4). ASCs performed 32.5% or 924,875 of these procedures. In FY00, ASCs performed 10.2% or 164,690 of the total 1.6 million outpatient procedures performed in Pennsylvania. The percent of procedures performed at ASCs has remained relatively the same over the past three fiscal years, FY09 to FY11.

There was a 76.2% growth in the total number of outpatient procedures performed at ASCs and outpatient departments of GAC hospitals between FY00 and FY11; 61.8% of that increase occurred at ASCs. During FY11, the net growth in the number of outpatient procedures performed at GAC outpatient departments and ASCs combined increased 2.6% over FY10 numbers. The number of outpatient procedures performed at GAC outpatient departments increased 2.7%, and the number of procedures at ASCs increased 2.5% in FY11. In FY10, the number of procedures at the ASCs increased 2.0% from the number performed in FY09.

FIGURE 4
Outpatient Procedures¹
by Facility Type

TABLE 4
Outpatient Procedures¹
by Facility Type

Facility Type	FY00		FY11	
	Procedures	Percent	Procedures	Percent
Ambulatory Surgery Centers	164,690	10.2%	924,875	32.5%
General Acute Care Hospitals	1,450,087	89.8%	1,920,314	67.5%
Statewide	1,614,777	100.0%	2,845,189	100.0%

¹ The outpatient procedure codes captured by PHC4 are available on the PHC4 website at <http://www.phc4.org/services/datarequests/procedures.htm>

Payer Mix

Figure 5 presents the payer mix for outpatient procedures performed at ASCs compared to GAC hospital outpatient departments. The greatest differences between the two facility types are the proportion of procedures covered by Medical Assistance (MA) and commercial health insurance plans. During FY11, MA was the payer for 4.7% of outpatient procedures at ASCs, compared to 12.0% at GAC hospitals. Commercial health insurance plans covered 52.7% of outpatient procedures at ASCs, compared to 44.8% at GAC hospitals.

The higher percentage of Medicare-based revenue received by ASCs is consistent with the difference in the average patient age at ASCs and GAC outpatient departments. In FY11, the mean age for patients undergoing an outpatient procedure at an ASC was 56.8 years, compared to 52.4 years for patients at GAC outpatient departments.

Individual Ambulatory Surgery Center Data

The individual ASC data tables on the following pages are based on data collected from 256 ASCs; fifteen ASCs did not submit complete data and their data is not included in this report. The facilities listed in the tables are arranged according to region.

Statewide and regional averages for ASCs are presented in the individual facility tables. Averages expressed as a percentage (e.g., operating margin) were calculated as if the entire group (state or region) were a single reporting entity. For example, the regional average operating margins were calculated by dividing the sum of operating income for all ASCs in the region and the sum of total operating revenue for all ASCs in the region.

The FY11 operating and total margins for each individual facility are included in these tables. Each facility's corresponding operating income, total income, and total operating revenue, expressed in dollars, can be found on PHC4's website at www.phc4.org. (Note: Other operating revenue must be included with net patient revenue to calculate the operating income that is used for operating margin.)

Pennsylvania Counties by Region

Region 1:	Allegheny, Armstrong, Beaver, Butler, Fayette, Greene, Washington, and Westmoreland.
Region 2:	Cameron, Clarion, Clearfield, Crawford, Elk, Erie, Forest, Jefferson, Lawrence, McKean, Mercer, Potter, Venango, and Warren.
Region 3:	Bedford, Blair, Cambria, Indiana, and Somerset.
Region 4:	Centre, Clinton, Columbia, Lycoming, Mifflin, Montour, Northumberland, Snyder, Tioga, and Union.
Region 5:	Adams, Cumberland, Dauphin, Franklin, Fulton, Huntingdon, Juniata, Lancaster, Lebanon, Perry, and York.
Region 6:	Bradford, Lackawanna, Luzerne, Monroe, Pike, Sullivan, Susquehanna, Wayne, and Wyoming.
Region 7:	Berks, Carbon, Lehigh, Northampton, and Schuylkill.
Region 8:	Bucks, Chester, Delaware, and Montgomery.
Region 9:	Philadelphia.

See footnotes on page 24.

Footnotes

1. The end of the fiscal year is not June 30. The data reflects the fiscal year that ended prior to June 30.
 2. The data is less than 12 months; therefore, a three-year comparison is not appropriate for some of the measures.
 3. Prior year(s) reflect less than 12 months of data; therefore, a three-year comparison is not appropriate for some of the measures.
 4. This is the first reporting year for this facility. Often expenses are higher than operating revenue during the start-up period. Three-year comparisons are not appropriate for this facility.
 5. The hospital has a specialty unit(s) such as psychiatric, rehabilitation, long-term care, skilled nursing, home health, etc., which are included in the data presented for the facility.
 6. Extraordinary item(s) reported on audited financial statement was included in the calculation of total margin.
 7. Balance sheet ratios are for the parent organization.
 8. Acquired or merged with another licensed hospital during the FY11 reporting period.
 9. Acquired or merged with another licensed hospital during the FY09 or FY10 reporting periods.
 10. For-profit facility.
 11. Facility is referred to by a different name, or it closed after the FY11 reporting period.
 12. Facility failed to satisfy the financial filing requirements.
 13. One or more of the required financial submissions was filed late.
 14. Facility submitted incomplete or inaccurate data.
- NR Information necessary to report or calculate this measure was not reported by the facility.
NA Not applicable.

Note: The above footnotes are applicable to all reports in PHC4's *Financial Analysis* series.

Explanation of Terms and Measures

3-year Average Change in Net Patient Revenue (NPR) or Total Operating Expenses (TOE): The average annual change in the facility's NPR or TOE that occurred from the end of FY08 through FY11.

$$\begin{aligned} & \left[\frac{(\text{NPR}_{11} - \text{NPR}_{08}) / \text{NPR}_{08}}{3} \right] \\ & \text{or} \\ & \left[\frac{(\text{TOE}_{11} - \text{TOE}_{08}) / \text{TOE}_{08}}{3} \right] \end{aligned}$$

3-year Average Total Margin: The average total margin realized by the facility during FY09 through FY11.

$$\left(\frac{\sum \text{revenue over expenses}_{11, 10, 09}}{\sum \text{total revenue}_{11, 10, 09}} \right)$$

Ambulatory Surgery Center (ASC): A licensed facility by the Pennsylvania Department of Health that provides specialty or multi-specialty surgical care to patients who do not require overnight hospitalization, but require medical supervision following a procedure. An ASC does not include individual or group practice offices of private physicians or dentists.

Commercial Third-Party Payers: Commercial insurers encompass all indemnity and managed care health insurance plans, including Blue Cross and Blue Shield plans, and hospital and health system plans. Government-funded programs, such as Medicare managed care, are not included even if a commercial insurer administers the program.

Long-Term Acute Care (LTAC) Hospital: A licensed acute care hospital by the Pennsylvania Department of Health that provides medical services for patients that require extended lengths of acute care inpatient stay.

Net Patient Revenue (NPR): Net patient revenue reflects revenue for patient care only and does not include revenue from other operations, such as the cafeteria, parking, rent, research and educational activities. Revenue from those operations is included in total operating revenue. NPR may include retroactive adjustments from third-party payers for care provided during a previous fiscal year.

Other Third-Party Payers: Third-party payers other than health insurance companies and managed care organizations. These include direct payments by employers or associations, auto insurance, workers compensation, and government programs (other than Medicare and Medical Assistance).

Operating Income: The amount by which total operating revenue exceeds total operating expenses.

$$(\text{total operating revenue} - \text{total operating expenses})$$

Operating Margin: The ratio of operating income to total operating revenue. This measure places operating income in perspective with the volume of business realized by the facility.

$$(\text{operating income} / \text{total operating revenue})$$

Outpatient Visits: The number of visits to the individual outpatient department of the hospital or surgery center during the fiscal year.

Psychiatric Hospital: A licensed institution certified by the Pennsylvania Department of Welfare to operate as a hospital that provides short-term acute psychiatric services on an inpatient basis. Psychiatric hospitals may also offer long-term residential and outpatient programs. Acute psychiatric care is rendered in response to severe psychiatric conditions requiring intensive or extensive intervention to bring the patient's symptoms under control.

Rehabilitation Hospital: A licensed inpatient facility by the Pennsylvania Department of Health, which is operated for the primary purpose of assisting in the physical rehabilitation of persons through an integrated program of medical and other services. Rehabilitation hospitals may also offer outpatient services.

Specialty Hospital: A licensed facility by the Pennsylvania Department of Health that provides specific types of inpatient and outpatient settings of care, such as drug and alcohol.

Total Margin: The ratio of total income to total revenue. This measure puts income from all sources in perspective with all revenues received by a facility.

$$(\text{revenue over expenses} / \text{total revenue})$$

Total Net Income (Revenue over Expenses): Total net income reflects the sum of operating income and non-operating income. Total income may also include an extraordinary item, such as the gain or loss from the sale of securities.

Total Operating Expenses (TOE): All costs associated with operating the entire facility, such as salaries, professional fees, supplies, depreciation, interest, insurance and bad debts. The acquisition of durable equipment and other property are not considered expenses and are reflected on the facility's balance sheet as assets. However, the cost to finance equipment (interest) as well as the depreciation, operation and maintenance costs of capital equipment are operating expenses.

Total Operating Revenue (TOR): All revenues allocated by the facility to meet operating expenses. Includes revenue sources such as net patient revenue, investment income, contributions, and revenue from other operations (e.g., cafeteria, parking, rent, research and educational activities). Individual facilities may also allocate investment income, contributions, etc., as non-operating income.

Total Revenue: Operating revenue plus non-operating income. The non-operating income component typically includes unrestricted contributions, investment income, and net investment gains and losses on marketable securities.

NON-COMPLIANT AMBULATORY SURGERY CENTERS

No Submission

The following ambulatory surgery centers were not in compliance with one or more of PHC4's filing requirements and are not included in this report.

Ambulatory Endo SC/Bucks
Bryn Mawr Med Specialists
Carbon-Schuylkill Endo
Center Reproductive (*closed 9/2011*)
Conyngham Valley SC
East York Eye SC (*closed 9/2011*)
Greater Erie SC
Northwood SC
Phila Cosmetic Surgery
Rhawn Street Endoscopy
Ridley Crossing SC
Valley ASC
Williamsport SC

Late Submission

The following ambulatory surgery centers submitted their annual financial data and/or the supporting audited financial statements late.

Aestique ASC	PRISM Center
Altoona Specialty Center	Progressive Laser Surgi
Carlisle Outpatient SC	Progressive Surgical Inst
Center for Specialized	Reading Endoscopy Center
Center for Surgical Arts	Red Lion SC
Children's SC	Regional Hospital SC
College Heights Endoscopy	SC Central PA
Community SC	SC Limerick
Crossroads SC	SC of Lebanon
Doylestown SC	SC of the Main Line
Elmwood Endoscopy Center	SC Pottsville
Gamma SC	Spartan Health SC
Jefferson SC/Navy Yard	Surgery & Laser
Keystone SC	Susquehanna Endoscopy
Laser Spine SC	Turk's Head SC
Leo R. McCafferty Plastic	Valley Forge SC
Mt Airy AESC	Valley Surgical Center
NEI AS	West Chester Endoscopy
Ophthalmology SC	Westfield SC
PA Eye SC	Wills SC Northeast
PGC Endoscopy	Wills Surgical Ctr City
Pine Grove ASC	Zitelli Brodland Central
Plaza SC	Zitelli Brodland South
Pocono ASC
